

# Manual Tilt Tree Saw

Rotating the blade is made even easier with included pull bar

Fully enclosed construction protects components and extends product lifespan

MADE IN USA

The Sidney Attachments Manual Tilt Tree Saw provides the same power and efficiency of our popular hydraulic rotate saw in a new cost effective design.

## FEATURES

- 180° head rotates in 45° intervals
- 95% efficient motor increases cutting power
- Low heat design requires minimal maintenance
- Bolt-less Kodiak carbide teeth are specially designed and simple to replace
- Proprietary blade is specifically engineered for wear resistant performance
- Can cut 24" diameter trees with ease
